### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance: the amendment filed on 8/4/2004 puts the application in condition for allowance. After updating the search, the examiner found no prior art capable of being read on the applicant's invention. Specifically, U.S. Patent 6,343,482 to Endo et al. teaches an injection of high-pressure liquid refrigerant at a halfway position of a compressor, not an expander, in order to increase the quantity of a discharged refrigerant. Also, U.S. Patent 6,381,973 to Bhatti et al. teaches the use of an expander in an air-conditioning circuit, however, it is an ambient air cycle in a car, which does not use a refrigerant. Finally, U.S. Patent 4,326,388 to McFee teaches the use of an expander to alleviate the workload of a compressor, wherein a compressor works half of the time. McFee does not teach the injection circuit.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Filip Zec whose telephone number is (571) 272-4815. The examiner can normally be reached on Monday through Friday, with the exception of every other Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Denise Esquivel can be reached on (571) 272-4808. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
